

2025 OUR IMPACT

At B'More Clubhouse, new member enrollment surged 45% compared to 2024, a milestone that reflects not just increased need, but increased trust in what we offer. Even more exciting: 64% of our new members this year are young adults. Historically, young people have represented just 10% of our membership. Younger members see B'More Clubhouse as a place of hope, opportunity, and belonging, and we are excited to continue building our Young Adult program.

Two new staff members joined us this year, strengthening our capacity to serve, and in 2026 we will be hiring two additional staff! In Annapolis, we have been advocating hard for policies that ensure the long-term sustainability of our program and future Clubhouses across Maryland. This work will shape the future of community mental health in Maryland for years to come.

Too many Marylanders still lack access to a Clubhouse, missing out on the community, structure, and opportunity that changes lives. Expanding the Clubhouse model means more people supported at a fraction of the cost of hospitalization or crisis care. We are thrilled to share that conversations about a second Clubhouse location are actively underway.

2025 BY THE NUMBERS

 175 MEMBERS SERVED

57  NEW MEMBERS
(a 45% increase from 2024)

7,004 OUTREACH CONTACTS MADE

8,255  MEALS SERVED

40%  MEMBERS ENGAGED IN EMPLOYMENT OR EDUCATION

\$5,138 ANNUAL COST PER MEMBER
(1/2 the cost of a 3 day psychiatric hospitalization)

FOR OUR MEMBERS, THE CLUBHOUSE HAS...

"...had a major positive impact in helping with my mental illness by giving me a space where I can be myself. I always feel welcome. It feels like a second home!"
Valdez N.

"...helped me re-enter the workforce, improve my technology skills, get involved in local advocacy work, and invest in my community while connecting me to much-needed resources. Overall, it has been a blessing in my life."
Irene W.

"...given me my social life back. After high school, I fell through the cracks, but being a part of this community has helped my mental health."
Cecilia C.

"...provided me with consistent grounding—a place to find community, work on myself, and gain support in my goals like education. The location and environment create both vibrancy and meaningful moments in my life."
Richard A.
